PROFILE

Frontend Developer with 3+ years of experience building Angular applications, currently working at Astek Polska on banking products for Erste Bank Polska. Hands-on experience leading a project as technical lead, integrating REST APIs, and contributing to backend development with Django REST Framework. Computer Science graduate, currently pursuing a Master's degree specialized in Web Application Development.

WORK EXPERIENCE

Frontend Developer

January 2026 – June 2026

Astek Polska • Remote

- Developing and maintaining Angular applications for a banking client (**Erste Bank Polska**), delivering features for projects such as **Cashback**, **W Podróży**, **Program Poleceń**, **Poradnik Cenowy**, and **VAS Retail**.
- Implementing complex UI views based on Figma mockups, translating designs into responsive and pixel-perfect Angular components.
- Leading and executing rebranding efforts across multiple applications, ensuring consistency with updated design systems and branding guidelines.
- Actively developing and enhancing the **Cashback** project, implementing new business features.
- Integrating frontend applications with backend services via REST APIs, using mocks during development to simulate backend responses and enable parallel frontend-backend workflows.
- Writing and maintaining unit tests to ensure code reliability, prevent regressions, and support continuous integration processes.
- Collaborating closely with designers, backend developers, QA, and business stakeholders in an agile environment (daily stand-ups, sprint planning, refinements, reviews).
- Participating in architectural discussions, code reviews, and technical estimations to ensure scalable and maintainable solutions.

Junior Frontend Developer

September 2023 – December 2025

MGA Sp. z o.o. • Toruń

- Developed and maintained Angular applications including complex views, tables, and dynamic forms.
- Participated in frontend architecture maintenance, including Angular version upgrades.
- Created and maintained custom Prettier plugins to enforce consistent code formatting across the codebase.
- Integrated WebSocket communication in Angular for real-time calendar updates and data synchronization on the frontend.
- Implemented and tested backend endpoints using Django REST Framework.
- Acted as technical lead on the **ERP Portal Kadrowy project**, defining tasks, estimating efforts, and serving as the primary decision-maker during code reviews.
- Worked on projects including **Kadry i Płace**, **MGA Frame**, **e-deklaracje**, and **ERP Portal Kadrowy** - comprehensive ERP solutions supporting HR, payroll, and administrative processes.
- Took part in daily stand-ups, sprint planning, and sprint reviews in an agile environment.

Trainee Frontend Developer

May 2023 – July 2023

Euvic • *Remote*

- Developed and improved UI components using Angular, TypeScript, and SCSS.
- Implemented new frontend features and handled bug fixes.
- Refactored existing code to improve readability and performance.
- Gained practical experience with RxJS operators and state management using NgRx.
- Collaborated in an agile team using Azure DevOps for task tracking and version control.
- Contributed to projects such as **e-muze.me** and **emunet** - music streaming and cultural content platforms developed for online distribution of audio materials.

Intern Frontend Developer

October 2022 – January 2023

MORAI • *Remote*

- Developed and styled UI components using Angular, SCSS, and TypeScript.
- Gained hands-on experience with React while working on smaller components.
- Implemented minor frontend features and fixed layout and logic bugs.
- Tested responsiveness and cross-browser compatibility manually.
- Used Git for version control and collaboration in small development teams.
- Contributed to projects such as **inventory**, **ranks**, **scout**, and **readow.ai**.

EDUCATION

Master's in Computer Science (in progress, expected 2028)

March 2026 – Present

WSB Merito University in Gdańsk • *Specialization: Web Application Development*

Bachelor's in Computer Science

October 2020 – May 2025

Nicolaus Copernicus University in Toruń

TECHNICAL SKILLS

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Angular (RxJS, Forms, Routing, HTTP, Angular Material, Signals, NgRx), WebSockets, Bootstrap, Figma
